

# STEMBOT

## PROFESSIONAL DEVELOPMENT OPPORTUNITY FOR EDUCATORS!

Presented by:  **NCI**

Instructed by:  
**Crystal Johnson**  
Math & Computer Science Teacher

Targeted to help teachers access classroom-ready resources, educators will leave this hands-on workshop with STEMbot instructional modules for instruction and access to the STEMbot for hands-on experiential learning for students.

The instructional content applies to middle-school courses (Agriscience courses, Introduction to Technology, Inventions and Innovations, Earth Science) and helps engage students in coding, problem-solving, and building career awareness.

Gain valuable professional development hours and receive a Certificate of Completion of the workshop from New College Institute. Educators and their students will have access to the STEMbot (free of charge) all through the year for the hands-on component of classroom instruction.

Max Participants: 15

Cost: \$150.00

Lunch & Snacks Provided
